

# **CHEMTRAIL POISONING**

**An Historic Failure of Government** that represents a  
**Gross Violation of the Public Trust**  
And  
**Profound Breach of the Social Contract**

Of all the ongoing assaults against the American people, none is so pernicious and *surreptitious, so pervasive and profound, so offensive and outrageous, so deliberate and yet unnecessary* as the geo-engineering and weather modification program known as *CHEMTRAILS*. Truly, the relentless *chemtrailing* of the skies of the USA represents a crime against the populace like no other.

The time has come for this crime against humanity to be prosecuted. Actually, it is long overdue for this long running and premeditated criminal conspiracy to poison various national populations of the world to be exposed. The cumulative repercussions of *chemtrails* are simply too harmful to human life, destructive to the environment and hurtful to society for them to be ignored. The patently illegal process by which *chemtrails* have been foisted on the continent can no longer go unaddressed.

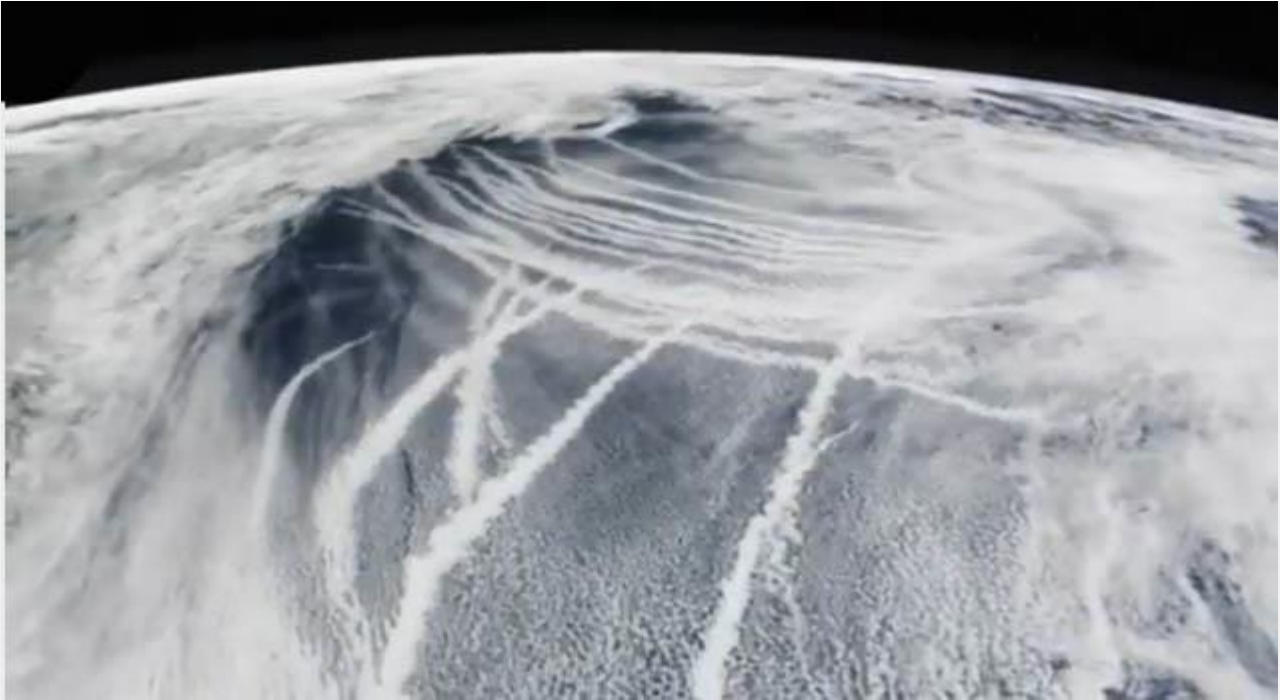

*When any government unlawfully arrogates power unto itself to poison the air at will, they effectively dissolve the bonds of any covenant that might have existed between them and the citizenry.*

In other words the secret legislation of laws that harm the citizenry of any nation on Earth represents a “gross violation of the public trust” as well as a “flagrant breach of the social contract”. The following excerpt from an advocacy group declaration addressing the very same type of unlawful and injurious behavior well sums up the point. The upshot of this declaration is that the government is by no means above the law. Therefore, it must be held accountable for its criminal actions just as the citizens can be prosecuted for committing chemical assault.

*“No one — no government, no corporation, no business, no individual or other entity under the sun — has the right to poison us or put toxins in our food, water, medicines, clothing, homes, automobiles, etc. Likewise, no one has the right to injure or harm us through any governmental law or statute, rule or regulation. Neither does any corporate process or procedure, which harms or defrauds, have any legitimacy in law.”*

— **The US Government Commits Chemical Assault Against Its Citizens**

It is commonly understood that legitimate laws are immutable and inviolable. Natural law and common law have stood the test of time ... eons in fact. International law and constitutional law, when legislated in the best interest of the respective global and national constituencies, likewise sit on a sound legal foundation that is often steeped in centuries of historical precedent. Within the context of each of these legal frameworks, the covert and unlawful practice of *chemtrailing* the skies of the world would be considered felonious chemical assault of the first degree. Especially because the vast majority of people who are deeply impacted are also completely unaware of the existence of and real purpose behind *chemtrails*, they constitute an egregious crime against humanity.

Satellite photo of the Northeast just prior to Superstorm Sandy (aka Frankenstorm Sandy) captures the enormity and intensity of chemtrailing operations.

*How are they allowed to get away with such perversely criminal activity in broad daylight?*

The governments of the world, which permit the daily chemical assault of its citizens, are first and foremost responsible for these ongoing crimes. The national airspace of each and every country across the planet is very closely monitored. Getting huge airliners aloft in order to heavily spray the skies is not only very expensive, it must require the foreknowledge and explicit approval of an assortment of federal and state agencies. Therefore, there is a whole range of governmental institutions which must directly participate in the decision-making process.

As a matter of fact, because of the many new laws concerning the control of airspace in the post 9/11 era, both Homeland Security and the Patriot Act have made it even more difficult for any and all flights over the nation to meet very specific and stringent criteria. In view of

these very strict and onerous protocols necessary for fight approval, it is all the more obvious that there are many in government who are directly participating in this relentless chemical assault.

That is essentially how they have gotten away with this deleterious practice for so long. Those responsible have made all of their decisions without any public involvement whatsoever. They have preplanned and engineered this ongoing scenario so that there is no single agency or decision-maker who is in charge of these covert programs. Furthermore, they intractably continue to deny their very existence, calling them normal contrail activity instead.

By staying close to this script there is simply no target for the American people to identify as the real culprit(s). When those in government who are responsible for the regulation of clean skies willfully participate in a complex conspiracy to deceive the citizenry to this degree, it is clear that something quite nefarious is going on. When they do trot out onto the stage the David Keith's and Ken Caldiera's of the world to justify what ever it is they claim they're not even doing, things get even hazier.

The following article lays bare the extent to which they have gone to cover up what may be the greatest *COVERUP* in recent history. Not only does this *COVERUP* cover up the skies of the world, it also does so at the expense of many physically compromised people.

## **CHEMTRAILS : The Biggest Coverup of All Time**

The chemical assault that is associated with this government run program has unquestionably contributed to the general malaise of the people of the world. Because of the many chemicals and other noxious constituents found in a typical *chemtrail* cocktail, billions are now regularly exposed to a dizzying array of known toxins and other air contaminants.

As the *chemtrails* are ejected in the form of aerosols from the aerosolizing equipment which these airliners are fitted with, it is demonstrated that this entire program has been implemented with the precision and purpose of a highly calculated military operation. The

only difference is that we are in peacetime, so who is the enemy if not the American people themselves.

The following article very clearly delineates the many health implications, as well as potential medical complications, which have been directly caused by this highly detrimental government-sponsored program. It also presents many factual details about *chemtrails* which illustrates an intention far beyond the conjectured weather modification. In this regard particularly, every American citizen ought to be demanding an immediate termination of *chemtrailing* operations wherever they are conducted in North America.

### CHEMTRAIL SYNDROME: A Global Pandemic Of Epic Proportions

## **Gross Violation of the Public Trust and Flagrant Breach of the Social Contract**

The entire chemtrail program has been conceived, designed, legislated and implemented without the sunshine of public involvement or approval. It is likewise extremely difficult to find either an elected official or government representative who will even admit to the existence of such a ubiquitous and costly geo-engineering program. In light of this extremely disconcerting state of affairs, perhaps it's time to remind all parties concerned what is aptly expressed in the following excerpt from a "citizens' indictment":

*"Government owes its existence to the people. Its primary purpose is to protect and safeguard the citizenry of the nation. It also exists to ensure the welfare of the populace, as well as to sustain an order in which all may flourish and pursue their goals. This social contract is very much a two-way street in which the governed promise to carry out their civic duties while the government fulfills the myriad responsibilities of statehood.*

*"What are some of the basic obligations and functions, which all governments are held to and expected to perform, within this contract? They include a good faith commitment to: (i) protect the life, well-being and livelihood of each and every citizen, (ii) maintain a reasonably safe and secure environment in which to live, work and play and (iii) guarantee access to products and services which are not inherently dangerous, harmful or injurious to the citizenry who relies on government to regulate them. Certainly, we state the ideal here recognizing that governments everywhere stray very far from these standards. However....*

*"It is now clear that this social contract and sacred trust have been flagrantly violated in the most profound and fundamental ways by the US Federal Government.*

**– CITIZENS' INDICTMENT of the US Federal Government**

Getting back to basics, man requires food and water, clothing and shelter to live a reasonably healthy life. However, just as important is the requirement of clean air. In the absence of clean air, the quality of life will always deteriorate. Toxify the air on a regular basis and you create a conducive environment for all kinds of disease and illness, sickness and imbalance to appear throughout society. Clearly, the more compromised an individual's immune system is, the more susceptible to chronic illness and/or degenerative disease he or she will become.

For this reason it is highly recommended for each and every person living under *chemtrailed* skies to read the following article concerning the many health ramifications associated with the exposure to *chemtrail* chemicals, toxins and contaminants.

## CHEMTRAIL SYNDROME: A Global Pandemic Of Epic Proportions

Only if you have read the previous link and now understand the far-reaching and profound effects of *chemtrails*, will you sufficiently comprehend the importance of the excerpt that follows:

*“Governments (and the corporations they regulate) have unlawfully arrogated power unto themselves in such a way that it illegally assaults and injures, poisons and sickens, incapacitates and disables, and in many instances kills the citizenry it has sworn to protect and safeguard.”*

– Coalition Against Chemical Trespass

### **Conclusion:**

The single biggest obstacle confronting those of us who have been attempting to terminate the spraying of chemtrails in our skies is the disbelief of our fellow citizens. That's right, it is both the ignorance (they ignore what is going on in the skies right above them) and the outright disbelief (many cling to the obvious contrail canard) of our families and friends, co-workers and neighbors, which pose the most formidable obstacles to shutting down these illicit programs.

Therefore, if you are exasperated about having your tax dollars used to poison your air while they systematically take away the sunny skies, then please keep the preceding photo

handy for the next *Doubting Thomas* you encounter. If they continue to hang their hats on the patently false “contrail explanation” after seeing this photo and many others like it, perhaps it would be best to move on to seek another ally in this urgent global cause. After all, how many times have we all seen them simply turn on and then turn off the aerosolizing equipment while their airliners turn the sky into a *tic tac toe board*?!
